GENERAL STATEMENT

The University of North Carolina, under the guidance of Dr. Charles S. Mangum, Dean of the School of Medicine, in 1935 offered courses of study in Public Health Administration in order that immediate and practical needs of trained personnel in this State and region might be adequately met. This service was made possible through the coördination of the facilities and the staffs of the Schools of Medicine and Engineering of the University and the North Carolina State Board of Health, the three agencies of the State which are concerned immediately with the problems of public health.

In 1936 a Division of Public Health was established and a Director appointed. The University of North Carolina, at Chapel Hill, has been designated and approved by the United States Public Health Service as the center for the training of health officers for the Interstate Sanitary District No. 2, extending from Delaware to Florida, to carry out the provisions of the Social Security Act for the training of public health personnel. A Field Demonstration Unit has been established in the Orange-Person District Health Unit in coöperation with the City-County Health Department of the adjoining County of Durham for the purpose of giving trainees practical experience in rural and urban health administration.

The object of the Division of Public Health in the beginning is to offer comparatively short courses best adapted to equip personnel for the special responsibilities of health work, such as Public Health Administration, Epidemiology, Vital Statistics, Sanitary Engineering, Public Health Laboratory Methods, Child Hygiene, etc. The curriculum covers a period of twelve weeks and includes intramural instruction, laboratory exercises, health surveys and field work. Following this a month with the field demonstration unit is required for North Carolina trainees. Each State will establish its own unit and requirements for practical experience.

The students in the Division of Public Health are enrolled in the University of North Carolina and enjoy all the rights and privileges of the general student body. They may take courses in other departments of the University, provided they are properly qualified and have the approval of the administration. Upon satisfactory completion of the course a certificate or diploma is awarded by the University.

Students in the Division of Public Health will have the privilege of coöperation with the State and local health administration and the field demonstration unit of the county.

SHORT COURSE IN PUBLIC HEALTH FOR DENTISTS

The Division of Public Health has, during the past year, conducted a special short course designed to better qualify dentists now with the Division of Oral Hygiene of the North Carolina State Board of Health to teach mouth health in the public schools.

As an outgrowth of this successful experience the Division is planning an enlarged program for the training of dentists in public health work to begin at some time during the coming academic year. It is expected that this course will be conducted for a period of twelve weeks, concurrently with the other public health training periods. Inquiries regarding this proposed course should be sent to the Director.

HEALTH AND RECREATION

The health of the student community is cared for by the maintenance of a properly appointed infirmary with a staff of well trained physicians and nurses. The university gymnasium and five large athletic fields provide ample facilities for exercise and recreation, all under the supervision and direction of a well organized department of physical education.

LIBRARIES

In addition to the specialized departmental and school libraries, the general university library, containing over two hundred and eighty thousand volumes, offers its opportunities to members of all divisions of the institution.

LOCATION

Chapel Hill is well located for this purpose, being just thirty miles west of Raleigh, the capital of the State, and the headquarters of the State Board of Health. The University of North Carolina is in the beautiful Piedmont section of hills and forests, served by the Southern Railway and entered from every point by paved roads. It is in an environment of natural beauty and simple culture, age and traditions.

REQUIREMENTS FOR ADMISSION

- I. For physicians who will fill positions in public health work, it is expected that those accepted for admission will have a medical degree and perhaps some experience in public health work.
- II. For public health workers without medical degrees:
 - a. For sanitary engineers a degree in engineering from an accepted university or technical school is a prerequisite.
 - b. For sanitarians, a bachelor's degree from a recognized institution of learning.
 - c. For sanitary officers, credits in physics, chemistry and biology of college grade.
- III. Special Students. Practical experience may be accepted by the University in lieu of college courses, each case to be arranged with the Director.

CERTIFICATES AND DIPLOMAS

Certificate: Those having a degree in medicine or engineering and completing an approved course of studies for health officers, sanitary engineers or sanitarians and complying with all requirements will be entitled to a certificate signed by the President of the University, the Secretary of the State Board of Health, the Dean of the School of Medicine, and the Director of the Division of Public Health.

Diploma: Those completing an approved course of studies to prepare them for the duties of a sanitary officer and who have complied with all requirements will be entitled to a diploma signed by the Dean of the School of Medicine and the Director of the Division of Public Health.

Letter of Attendance: A letter of attendance may be given to those who take some or all of the courses.

FEES AND EXPENSES

The fees, including tuition and registration, will be \$100.00 for health officer trainees for the three months' period, and \$75.00 for personnel desiring training in sanitary engineering or in the sanitary sciences. Students may be admitted from outside the Sanitary District No. 2. The fees charged for such students will be \$200.00 for the course for health officers, and \$150.00 for the course in sanitary engineering or in the sanitary sciences, payable in advance.

Students are requested to bring a microscope.

DORMITORY ACCOMMODATIONS

Dormitory accommodations are available in the University dormitories, room rent ranging from \$5.25 to \$10.00 a month for each occupant, price depending upon the location of the room. This includes light, heat and service. All rooms in the dormitory are completely furnished. Students will, however, provide their own pillows, bed linen (for single beds), blankets and towels.

Rooms in private homes may be obtained at a cost of from \$15.00 to \$20.00 per month.

BOARD

The University is glad to announce that the University Dining Hall Cafeteria will be open for business in September, 1936. It will guarantee good food prepared under a scientific dietitian, and will furnish this food at a non-profit cost. The more patronage it has from students, the lower the cost will be.

Board may be had in private boarding places, cafeterias, coffee shops, and cafes at from \$22.50 a month to \$35.00 a month.

The University operates a well equipped laundry which takes care of the students' washing and ironing at moderate cost.

SCHOLARSHIPS

Scholarships, including an allowance for expenses, have been allotted to the District of Columbia, Delaware, Maryland, Virginia, West Virginia, North Carolina, South Carolina, Georgia and Florida under the Social Security Act. Application for these scholarships should be made to the State Health Officer of the State in which the applicant resides.

REGISTRATION

Two courses of three months each will be offered during the year 1936-1937, one in the fall and one in the spring.

Students who are accepted for the fall term will register in the office of the Secretary of the Division of Public Health on *Thursday, September 17, 1936*, between the hours of 9 a. m. and 5 p. m.

Students who are accepted for the spring term will register in the office of the secretary of the Division of Public Health on *Monday, March 15, 1937*, between the hours of 9 a. m. and 5 p. m.

EXAMINATIONS

The regular examinations in the Division of Public Health are held during the final week of each training period.

THE PUBLIC HEALTH CURRICULA

The following courses, except those which are designated for special groups, are required of all trainees. Extra time is given for the instruction of health officers in public health administration, epidemiology and child hygiene. Sanitary engineers are given a special advanced course in the more technical phases of public health engineering.

- 101 Public Health Administration
- 111 The Principles and Practices of Sanitation
- 112 Sanitary Engineering
- 121 Epidemiology
- 122 Communicable Diseases
- 131 Child Hygiene
- 141 Vital Statistics
- 151 Public Health Laboratory Methods
- 161 Preventive Medicine and Hygiene
- Public Health Surveys and Sanitary Excursions
- Conferences

COURSES OF INSTRUCTION

101. PUBLIC HEALTH ADMINISTRATION.

Lectures: The theory of public health administration is developed by a study of the administrative methods actually employed in various governmental units including municipalities, counties, states, and the federal government. Certain phases of public health administration are covered by special lecturers who are invited from time to time to cover those particular fields upon which they can speak with authority.

Some time is given to proper procedures in the administrative control of the more important communicable diseases such as tuberculosis, venereal diseases, diphtheria, pneumonia, measles, whooping cough, meningitis, typhoid fever, intestinal parasites, rabies, and malaria.

Each student is required to make a public health survey of some city or town according to an outline supplied him.

Each student compiles his own text book during the course, using a loose leaf system. The notes on the lectures are supplemented by pamphlets, reprints, forms, and references to specific phases of the work, so that at the end of the course the student has the nucleus for a public health reference library which can be enlarged from year to year.

Field Studies and Demonstration: Arrangements are made for field visits to the adjoining health departments and the North Carolina State Board of Health for the purpose of coördinating the lecture material with actual field demonstration.

Three lecture and two demonstration hours each week. Professor Fox and special lecturers.

111. THE PRINCIPLES AND PRACTICES OF SANITATION.

A general survey course, consisting of lectures, demonstrations, laboratory exercises, and field visits, designed to meet the needs of students preparing to engage in public health activities. The following subjects will receive attention: (1) Historical and Epidemiological background of sanitation, its direct and indirect effects on the public health; (2) Sanitary surveys; (3) Rural sanitation; (4) Water supply—protection of sources, collection, purification and distribution; (5) Sewerage—sewage collection, treatment, disposal, stream sanitation; (6) Laboratory analysis of water, sewage, and industrial wastes; (7) Malaria control; (8) Illumination; (9) Plumbing; (10) Food Sanitation—production, preservation, and preparation; (11) Milk sanitation; (12) Shellfish sanitation; (13) Garbage and refuse collection and disposal; (14) Sanitation of schools, camps, and bathing places.

This course includes several field trips with reports on the following:

1. Sanitary survey of rural and domestic water supplies.
2. Inspection of water purification plants and sewage treatment works.
3. Inspection of garbage collection, equipment, and incinerators.
4. Inspection and rating of dairies of all grades.
5. Inspection and rating of hotel and restaurant kitchens and food stores.
6. Inspection and rating of prison camp and school sanitary facilities.

Three lecture and four laboratory hours each week. Professor Baity and Messrs. Geyer and Hollett.

112. SANITARY ENGINEERING.

An advanced course in sanitary and public health engineering for students holding engineering degrees. It includes studies of the design and operation of water supply and sewerage systems, water and sewage treatment plants, industrial waste disposal, rural sanitation, drainage, malaria control, hydrology, etc. Parallel laboratory exercises comprise problems in the layout and

design of sanitary engineering works and in the laboratory techniques employed in their operation and control.

Three lecture and four laboratory hours each week. Professor Baity, Messrs. Geyer and Hollett.

121. EPIDEMIOLOGY.

The course will consist of lectures and demonstrations, and will cover the epidemiology of important type diseases, such as small pox, typhoid fever, para-typhoid fever and dysentery, diphtheria, scarlet fever, measles, whooping cough, influenza and pneumonia, tuberculosis, poliomyelitis, malaria, endemic typhus, Rocky Mountain spotted fever, pellagra, venereal diseases.

The practical field work of this course will be obtained in local health departments, both city and county. The epidemiological study of one disease is required in written form from each student.

Three hours each week. Dr. Rosenau and Dr. Knox.

122. COMMUNICABLE DISEASES.

This course, for sanitary engineers, sanitarians, and sanitary officers, consists of lectures describing the clinical picture of the more common communicable diseases, particularly those diseases covered in the courses in Epidemiology and Preventive Medicine and Hygiene.

Three hours each week. Professor Rose.

131. CHILD HYGIENE.

Lectures will cover maternity and infancy hygiene, growth and development of the child, nutrition and food requirements, deficiency diseases, child welfare agencies, diseases peculiar to childhood, oral hygiene, mental hygiene.

Practical field work will be obtained in the field training center.

Two hours each week. Professor Fox, Dr. Knox, Dr. Cooper and Dr. Branch.

141. VITAL STATISTICS.

The lectures outline methods of vital registration, the participation of local health departments in recording births and deaths, and the value of these records when properly used. Methods are presented for collecting, tabulating, and graphically presenting statistical data, with special emphasis on their use by the county health officer. The calculations include population estimations, rates and ratios, and simple curve fitting. Laboratory work furnishes the student an opportunity to apply the principles covered by the lectures.

One lecture and two laboratory hours each week. Dr. Stimpson.

151. PUBLIC HEALTH LABORATORY METHODS.

Lectures, discussions, and practical laboratory work in the diagnosis of diseases of public health importance, such as: scarlet fever, diphtheria, tuberculosis, whooping cough, pneumonia, typhoid fever, bacillary and amoebic dysentery, brucellosis, gonorrhoea, syphilis, rabies, malaria, and hook worm. Insect vectors are examined, and simple classification of mosquitoes attempted. The preparation, standardization, and use of biological products is discussed, and the student performs Schick, Dick, Widal, Wassermann, and Kahn tests. Emphasis is placed on proper taking of specimens, principles involved in diagnosis, and interpretation of results.

One lecture and six laboratory hours each week. Professor MacPherson.

161. PREVENTIVE MEDICINE AND HYGIENE.

A general course in preventive medicine from the standpoint of epidemiology, covering some of the important facts on which scientific and sound public health administration is based.

Three hours each week. Dr. Rosenau.

PUBLIC HEALTH SURVEYS AND SANITARY EXCURSIONS

Several field trips are made, especially in the courses dealing in sanitary engineering, public health administration, and epidemiology. Students will be accompanied by instructors.

MISCELLANEOUS

Instruction is also given in public speaking, mental hygiene, heredity and sex hygiene, mental deficiency, etc.

PUBLIC HEALTH UNIT FOR FIELD INSTRUCTION

An additional month will be devoted to actual work in this unit, under the guidance and instruction of Dr. William P. Richardson, for North Carolina trainees.

GENERAL STATEMENT

In accordance with the plans that are being carried out in the consolidation of the Greater University of North Carolina, the Summer Sessions of the University at Chapel Hill, of the State College of Agriculture and Engineering at Raleigh, and of the Woman's College at Greensboro have been united into one organization. A Director for all three of the schools has been appointed. The Dean of Administration of each institution has charge of the administration. The work of the three divisions will be arranged according to function:

Regular college work of standard grade will be provided at each institution. Elementary Education will be the distinctive field of work at Greensboro; Agricultural, Vocational, and Technological training, at State College; and Undergraduate work (including Secondary Education) and Graduate work, the distinctive fields at the University at Chapel Hill.

There will be a single session of six weeks at each of the institutions, with a second term of six weeks at Chapel Hill only. The work of the three institutions is being correlated and coordinated in such a way that the students and teachers of the state may be better served than hitherto. Special effort will be made to provide in the second term at Chapel Hill work which will supplement courses taken in the first term at Greensboro or at Raleigh.

Separate announcements are issued for each of the three divisions of the Consolidated Summer Schools.

From this point on—the General Information, Announcement of courses to be offered, and Special Features given in this Announcement are for the University Summer Session at Chapel Hill. Requests for the announcement of the Woman's College Summer Session should be addressed to Dr. W. C. Jackson, Dean of Administration, Greensboro, and requests for the announcement of State College Summer Session should be addressed to Col. J. W. Harrelson, Dean of Administration, Raleigh.

PART I—GENERAL INFORMATION

The Summer Session: June 11-August 29

The University Summer Session at Chapel Hill will open on Thursday, June 11, 1936, and continue for twelve weeks, closing on Saturday, August 29. The session will be divided into two terms of six weeks each. The first term will begin on Thursday, June 11, and close on Wednesday, July 22. The second term will begin on Thursday, July 23, and close on Saturday, August 29.

Registration

For the purpose of relieving the unpleasant congestion and delay inevitable in a short period of personal registration, the student is given the option of registering by mail. Registration blanks and instructions may be had upon application any time after the publication of this catalogue. Address the Registrar, or call at Room No. 101 South Building. Students are urged to take advantage of this arrangement and avoid having to stand in line. At the same time they are urged to consider carefully what courses they wish to take, and to register correctly, so that later changes will not be necessary. Students who are in doubt about their courses should correspond at once with the instructors or the departments concerned.

The regular time for registration for the first term will be Thursday, June 11. All students of the Summer Session should be present and register on that day, as the regular class work will begin promptly at 8:00 on Friday morning, June 12. Moreover, there is an extra fee for delayed registration. For those registering June 12 or 13, the extra fee is \$2.50. For those registering June 15 or 16, the extra fee is \$5.00. Registration for credit will not be permitted in the first term after 5:00 o'clock Tuesday, June 16, nor in the second term after 5:00 o'clock Tuesday, July 28, except by executive permission. See Calendar.

Admission. Those may enter who meet the University's requirements for admission as set up in the regular catalogue; teachers holding regular state certificates; graduates of standard high schools; special mature students not applicants for degrees.

In case of those who meet the above requirements it is not necessary to make application for admission to the Summer Session in advance of registration. Those advanced students who are not seeking academic credit at the University of North Carolina will not be required to submit transcripts of their previous work.

Divisions of the Summer Session. The College Division (undergraduates), the Graduate School, and the Schools of Law and Pharmacy.

Credits. Three courses meeting five or six hours a week constitute a student's normal load in the summer session. A student in the Undergraduate Division may carry four courses, provided he has the approval of the Dean of the School in which he is registered. All courses carry degree credit in one or more schools of the University. The Summer Session course meeting five or six hours a week for six weeks carries a credit of $2\frac{1}{2}$ or 3 quarter hours respectively or $1\frac{2}{3}$ or 2 semester hours respectively. (For certificate credit in North Carolina each such course carries credit for two semester hours; one meeting ten or twelve hours a week, four semester hours.)

Attendance. Absences are counted from the first meeting of each course. No unexcused absences are permitted in the Summer Session.

Standard of Work

The standard of work in courses given for University credit will be in all respects that of the corresponding courses as given during the regular session, as these courses are an integral part of the work of the University. It is the hope of the University that, by giving such courses, increased service may be rendered to the growing body of teachers in the state who have already completed college courses or done some work of college grade and who now desire while in service to improve themselves along both professional and cultural lines.

Courses of freshman and sophomore grade will not be credited as graduate work. Courses of junior and senior grade if numbered above 100 in the statement of courses (see Part II of this announcement), may be given such credit as is indicated in the regulations below. Definite information about the different credit that certain courses carry can be obtained at the time of registration.

Term Reports and Grades

After the close of each term reports of the standing of all students in all their studies are sent to the student. Records of all students desiring professional credits with the State Department of Education will be sent to that department immediately after the close of each term *provided record cards, furnished for this purpose, have been carefully filled out by such students and left in charge of the Associate Registrar.* The reports are based upon the following system of marking:

- Grade A, Excellent
- Grade B, Good
- Grade C, Fair
- Grade D, Barely passed
- Grade F, Failed
- *Grade I, Work incomplete

* The grade I indicates a deficiency in a certain portion of the work of a course. It may be converted into one of the other grades by completing within a period of twelve months such additional assignments as may be required by the instructor in the course. A grade of I not so converted becomes grade F.

A student must attain a grade of D to pass in any study. Students receiving grade F must repeat the study to receive any credit for the same.

Grades for each graduate course completed are reported to the Dean and to the Registrar. These grades are as follows:

“Passed,” which represents satisfactory work.

“Failed,” which represents work that is unsatisfactory for graduate credit.

No work falling below the standard represented by the grade of “Passed” is counted for graduate credit. If, in the judgment of the Graduate School, the quality of the work done by any student falls below the standard expected of graduate students, the registration of such a student will be canceled.

Degrees: When Conferred

Degrees are conferred at the annual commencement in June and at the close of the second term of the Summer Session. Degrees conferred at the close of the Summer Session are awarded without academic ceremony.

Admission to Undergraduate Courses

Applicants for admission to courses of freshman grade must satisfy the requirements for entrance as laid down in the University catalogue. These requirements comprise a total of 15 units selected from the subjects of English, foreign languages (ancient and modern), history, mathematics, science, and vocational subjects. For details the applicant is referred to the University catalogue.

Applicants for courses of advanced grade must furnish evidence of work of college grade completed at this or another institution.* Such evidence must consist of the official statement from the institution where the work was done, showing definitely the courses pursued and the amount of credit recorded. Admission to specific courses will be determined in each case by the department on the basis of previous preparation.

Application for admission to undergraduate courses should be sent in advance to the Dean of Admissions. This application should be accompanied by certificates of preparation, or official statements from other institutions that the applicant has attended, and a list of the courses the applicant desires to pursue. Blanks for this purpose will be furnished on request.

The Graduate School

The Summer Session offers excellent opportunities for carrying on advanced work in many fields of learning. Graduates of standard

* Advanced students not seeking credit in this institution are not required to submit transcripts of their former records.

colleges are admitted to the Graduate School during the summer term on precisely the same basis as in the regular session. Such students may become candidates for advanced degrees or may register as special students in such courses as they desire.

Students who wish to pursue in the Summer Session courses leading to the Master's degree should bring with them when they register a transcript of their college credits. In case the student has not had sufficient training to enable him to pursue strictly graduate courses, provision may be made in the Summer Session for the making up of such deficiency.

Beginning last summer, the Graduate School and the Departments instituted a plan of curricular reorganization. Courses will be offered in cycles, following a sequence of three years. This plan, it is thought, will facilitate securing by the student logical and evenly balanced programs of study.

No student may receive credit during any one summer quarter for more than three courses in the Graduate School.

1. *Admission.* Holders of degrees from standard colleges are admitted without examination upon presentation of their credentials. *It will save time at registration if these credentials are submitted in advance of the opening of the Summer Session.*

Admission to the Graduate School is not the same as admission to candidacy for a higher degree. For admission to candidacy for a degree a student must have been in residence in the Graduate School for one quarter or two summer terms. Action on each case is postponed until the student has progressed sufficiently to make possible the planning of his course. This does not imply any increase in the length of time necessary for the attainment of the degree. It means simply that the individual record of each student, undergraduate as well as graduate, is taken into account in determining what must be done in order to secure the degree.

2. *Regulations as to Courses.* While graduate students may register for any of the courses offered by the Summer Session Faculty, no courses will count for credit towards an advanced degree unless they are classified as graduate courses in this bulletin or in the Catalogue of the Graduate School. These courses must be selected in accordance with the rules for major and minor subjects set forth in the catalogue of the Graduate School. In general, this means that two-thirds of a candidate's work during his entire period of residence (three summers being the usual time required) must be from one department, the remaining one-third being from a closely allied minor department.

3. *Requirements for the Master's degree.* For a detailed statement of the requirements for the degrees of Master of Arts and Master of Science, the student is referred to the catalogue of the Graduate School. These rules are the same in their application to

Summer Session students as in the case of students registered for the regular sessions. Students may continue their studies during the year under the direction of the special committee in charge of their work, and may do part of the work required for their theses in this manner. In certain approved cases, also, credit not to exceed six semester hours (or nine quarter hours) may be transferred for work done in another university. Every such case is treated individually and must be approved by the Administrative Board of the Graduate School, on recommendation of the department of major study, at the time application is made for admission to candidacy for a higher degree. Students who are not admitted under these special conditions will find three full summer quarters necessary for the completion of the requirements for the Master's degree.

Work taken more than five years before the date at which the master's degree is expected may not be used to count for credit toward that degree.

A reading knowledge of at least one modern foreign language is required of candidates for the master's degree. This knowledge will be tested by a special examination given by the language department, and must be certified to before the student is admitted to candidacy for the degree.

The thesis must be written in accordance with provisions stated in the Graduate Catalogue. It may count not to exceed one course. This thesis may be handed in, and the final oral and written examinations may be taken by special arrangement during the year. (See scheduled dates on the calendar.) The Master's degree is conferred at commencement in June and at the end of the second term of the Summer Session.

4. *Requirements for the Doctor's Degree.* Prospective candidates for the degree of Doctor of Philosophy are referred to the Catalogue of the Graduate School for a detailed statement of the requirements for the degree. For purposes of convenience a summary of these requirements is presented here:

1. Admission is the same as for the master's degree.
2. A minimum of three years of graduate study, at least one of which must be at the University of North Carolina.
3. A reading knowledge of French and German.
4. A major covering adequately the field of major interest and at least twenty semester hours (or thirty quarter hours) in a minor.
5. A preliminary oral examination.
6. A written examination in the field of major interest.
7. An oral examination covering the entire field of study.
8. A dissertation.

5. *Further Information.* All students who propose to do work leading to an advanced degree should read carefully the catalogue of the Graduate School, which will be sent on application to the Dean of the Graduate School.

Reports and Professional Credits

At the close of each term regular examinations will be held, and reports will be made. These reports state definitely the courses pursued and the grades attained.

Records of all students desiring professional credit with the State Department of Education will be sent to the Director of Certification immediately after the close of each term of the Summer Session, *provided record cards, furnished for this purpose by the State Department of Education, have been carefully filled out by such students and turned in to the office of the Associate Registrar.*

Teachers' Bureau

A Teachers' Bureau is maintained by the Department of Education during the Summer Session for the benefit of teachers desiring a change in position. Many applications for teachers are received each year during the Summer Session, and many superintendents visit the University for the purpose of employing well qualified teachers. In order that the management may keep closely in touch with available teachers and be enabled thereby to render prompt service to school officials applying for teachers, all well qualified applicants in attendance are invited to register with the Teachers' Bureau. Each registrant will have the services of the Teachers' Bureau for one year beginning with the date of registration. Applicants are expected to file with the Bureau photographs and typewritten testimonials or letters of recommendation.

The Library

The University Library has occupied its new building since July, 1929. It now contains more than 285,000 volumes and 3,461 periodicals are regularly received. The building houses, aside from the general collection and reading rooms, the Rural Social Economics Library, Commerce Reading Room, and the Library School. A special room is devoted to North Carolina history. A separate room is provided for the use of students doing collateral reading in material reserved for their convenience by University instructors. One hundred study carrels are provided with the bookstacks for graduate students and faculty, to which assignment is made on application.

Graham Memorial Building

Graham Memorial Building will be open to Summer Session students for social and recreational purposes.

The Gymnasium

During the Summer Session the Gymnasium will be used for the classes in physical education and for social activities conducted under the auspices of the Y. W.-M. C. A.

The Infirmary

During the Summer Session the University Infirmary will be open for the convenience of the students in attendance. The Infirmary will be under the direction of the Physician to the Summer Session, and a Registered Nurse, who with an assistant, will be constantly in attendance. There will be no extra charge for the services of the physician or of the nurse, except in cases of prolonged and serious illness necessitating a special nurse. The Summer Session Physician will be at the Infirmary two periods a day for consultation and advice. At these hours students of the Summer Session will be given the opportunity to consult the physician about any matters pertaining to their health.

Expenses for Each Term of Six Weeks

Rooms

For Women:

In several renovated and screened residence halls.....	\$ 7.50
In Spencer Hall, single.....	\$22.50 Double..... 15.00
In Graduate Woman's Club, single..	22.50 Double..... 15.00

For Men:

In renovated and screened Battle-Vance-Pettigrew.....	\$ 7.50
In Graduate Men's Club.....	15.00

For Married Couples:

In renovated and screened Graham Dormitory, per room..	\$15.00
--	---------

Other residence halls will be opened as required.

Board

At Spencer Hall, \$35.00 for each term. All residents of Spencer Hall are required to take meals in the dining room. At Men's Graduate Club the requirement will be announced later. The average cost for board in Chapel Hill cafeterias, cafes, and boarding houses should be about \$6.00 per week.

Other Expenses

Registration fee for each student for each term of six weeks (including privilege of University Library and Infirmary) \$12.50. Course fee for each quarter-hour credit a term of six weeks, \$2.25. The average number of quarter-hour credits taken by each student is about eight, making the course fees about \$18.00 a term of six weeks; but these programs with their courses vary according to the desires and needs of individual students. A laundry deposit of \$6.00 is required against which a charge is made for the work done. If the amount of work done is less than the deposit, the balance is refunded, except that a minimum average charge of twenty-five cents a week will be made.

Other Dormitories

Old East Building contains 39 rooms and will accommodate 75 students.

Carr Building contains 28 rooms and will accommodate 62 students. See under *School of Law*.

Old West Building contains 39 rooms and will accommodate 75 students.

Lewis and Everett Dormitories contain 56 rooms each, and will accommodate 112 students each.

Grimes, Manly, and Ruffin Dormitories contain 45 rooms each, and will accommodate 90 students each.

During the Summer Session each of the dormitories for women will be in charge of a capable hostess who will see that the University's regulations regarding the health, comfort, and safety of the students are carried out, and who will be always ready to give the young ladies such advice and assistance as they may need. All dormitory rooms are well screened.

Housing and Rooming Bureau

The "Y" office keeps accurate information on available houses, apartments, and rooms for rent in Chapel Hill. Summer students and faculty are invited to make use of this service.

Regulations Concerning Women Students

All women students of the Summer Session under 24 years of age, except residents of the Chapel Hill community who live at home, are required to live in the University dormitories.

Wherever women students of the Summer Session reside they are under the supervision of the Adviser to Women and the hostesses, and are expected to conform to the general regulations prescribed for women students.

Reservations Must Be Made in Advance

Students desiring rooms in the University buildings must have their reservations made in advance, or the management cannot guarantee to them accommodations. Each application for a reservation should be accompanied by a check for \$7.50 to cover room rent for the term. *Make all checks payable to the University of North Carolina.* Application should be made to the General Cashier prior to June 1, in order that applicants may be notified before leaving home whether or not their reservations have been made as requested.

What the Student Must Furnish

Students occupying rooms in the University dormitories must furnish their own bed-linen, pillows, towels, etc. Each student who

secures a room in one of these dormitories will be expected to bring the following articles:

- 1 pillow.
- 2 pairs pillow-cases.
- 2 pairs of sheets (for single bed).
- 2 counterpanes.
- 6 towels.

Books and Materials

Students of the Summer Session will be expected to provide themselves with all books and materials required for their individual use in the courses pursued. Some of the texts to be used are announced in connection with the description of the various courses. Students may procure their books before coming to Chapel Hill, or they may get them here at the University Book Exchange, at the usual market prices.

Schedule

In the Summer Session schedule the day is divided into periods as follows:

MORNING HOURS

First Period.....	8:00 to 9:00
Second Period.....	9:00 to 10:00
Third Period.....	10:00 to 11:00
Fourth Period.....	11:00 to 12:00
Fifth Period.....	12:00 to 1:00

AFTERNOON HOURS

First Period.....	2:00 to 3:00
Second Period.....	3:00 to 4:00
Third Period.....	4:00 to 5:00
Fourth Period.....	5:00 to 6:00

A daily schedule of recitations showing the hours and places of meeting for the various classes should be secured by each student at the time of registration.

Vesper Service

The University Summer Session recognizes the daily vesper service as the official devotional period for the campus. Vesper service will be held immediately following supper each evening, except Saturday and Sunday, on the lawn under Davie poplar, or in Memorial Hall in case of rain. This service will be of fifteen minutes length, and will consist of songs, scripture reading, and prayer. Attendance is voluntary. There will be no chapel service apart from the vesper service.

Recreation and Entertainment

In addition to the regular courses of instruction scheduled in the various departments, there will be some form of recreation and entertainment provided each week during the Summer Session. Excellent

opportunities are available for those students and faculty members who wish to play golf. In addition to the 9-hole course of the Chapel Hill Country Club, 18-hole courses are available at the Hope Valley Country Club (six miles away) and at the Hillandale Club in West Durham (ten miles away). (See Part III—SPECIAL FEATURES.)

Expenses for Each Term

Not counting the cost of such variable items of expense as board, travel, books and materials (including laboratory fees), and laundry, and excluding all other incidental and extra charges, the fixed items of expense, each term for those who live in the college dormitories are stated above.

Refund of Fees

1. Fees paid in advance for room reservation for the first term will be refunded on application up to and including June 3 but not after that date, and for the second term, up to and including July 15.
2. If for any reason, a student, after registering, finds it necessary to withdraw from the Summer Session, registration and tuition fees, on application presented within the dates specified below, will be refunded, but in strict accordance with the following regulations:
 - (1) If application is made on the day of registration the amount paid, less a flat overhead charge of \$2.50, will be refunded.
 - (2) If application is made within a period of 4 days after class work begins, a flat overhead charge of \$10.00 will be deducted from the amount paid and the remainder refunded.
 - (3) After a period of 4 days from the time class work for the term begins, no refund of registration and tuition fees will be made, except in case of illness necessitating the student's withdrawal, in which case a proper adjustment will be made within a period of 10 days after class work begins, subject to executive action.
 - (4) In case of a student's withdrawal from the Summer Session, proper adjustment will be made in the charges for table board, laboratory fees, and laundry fees. After necessary deductions are determined by the department concerned in each instance, appropriate refunds of any unused part of such charges or fees will be made to the student.
 - (5) Extra fees paid for late registration may not be refunded for any reason except by executive action.

PART II—COURSES OFFERED

This catalogue is issued for the convenience of patrons of the Summer Session as early in the year as possible. Consequently, announcements of particular courses and instructors are not absolutely final. Furthermore, substitutions of courses may be necessary in the interest of students themselves, and, therefore, changes in the details of this catalogue may be announced later.

ASTRONOMY

s41. GENERAL ASTRONOMY. See Physics s41.

BACTERIOLOGY

s51. ELEMENTARY BACTERIOLOGY. Credit, 5 quarter hours.

First term. Professor MacPherson and Mr. Schaaf.

The fundamental principles of bacteriology are emphasized, and the student is trained in general bacteriological technique. The morphological and biological characteristics of yeasts, molds, and saprophytic bacteria are studied. The applications of bacteriology to agriculture, industry, sanitation, and disease are considered. Prerequisite, General Chemistry and one course in Biology. Hours: Lectures, 8:00 daily. Laboratory, 9:00 to 11:00 daily.

s57. COMMUNITY HYGIENE. Credit, 2½ quarter hours.

First term. Professor MacPherson.

A lecture and demonstration course designed to acquaint the general student with the sanitation of his environment, and the organization of the community for public health. History of hygiene; economics of health; bacteria and health; immunity; carriers; communicable and non-communicable diseases; relation of air, water, food, to health; community problems in mental hygiene, sex, infant and maternity welfare, and school hygiene. Hours: 11:00 daily.

BOTANY

Courses for Undergraduates

s41. GENERAL BOTANY. Credit, 6 quarter hours.

First term. Professor Couch and assistant. Laboratory fee, \$4.00. Hours: Lectures, 11:00 daily and 2:00 T., Th., F. Laboratory, 3:00 to 5:00 M., T., W., Th.

An introduction to the structure and classification of plants.

s43. STRUCTURE AND CLASSIFICATION OF SEED PLANTS. Credit, 6 quarter hours.

Second term. Professor Totten and assistant. Laboratory fee, \$4.00. Hours: Lectures, 11:00 daily and 2:00 F. Laboratory, 2:00 to 5:00 M., T., W., Th.

A continuation of General Botany with more advanced work in the structure and classification of seed plants. Special attention is given to the study of local flora. Prerequisite, General Botany.

Courses for Graduates and Advanced Undergraduates

s114. MORPHOLOGY AND DEVELOPMENT OF THE FUNGI. Credit, 5 quarter hours.

First term. Professor Couch. Laboratory fee, \$4.00. Hours: to be arranged with the class.

A study of the morphology of the fungi, with special attention to plant diseases, to the culture and development of the lower fungi, and to the identification of mushrooms. Prerequisite, General Botany.

s122. STRUCTURE, GROWTH, AND CLASSIFICATION OF THE LIVERWORTS. Credit, 5 or 2½ quarter hours.

First term. Professor Couch. Laboratory fee, \$4.00. Hours: to be arranged with the class. Prerequisite, General Botany.

s154. ADVANCED WORK IN THE STRUCTURE AND CLASSIFICATION OF SEED PLANTS. Credit, 5 quarter hours.

Second term. Professor Totten. Laboratory fee, \$4.00. Hours: to be arranged with the class.

Courses Primarily for Graduates

s254. MORPHOLOGY OF SEED PLANTS. Credit, 5 quarter hours.

Second term. Professor Totten. Laboratory fee, \$4.00. Hours: to be arranged with the class.

Advanced work in the embryology and anatomy of seed plants. Conferences, reports, laboratory and field work.

s304. GRADUATE RESEARCH. Credit, 5 or 2½ quarter hours.

Each term. Professors Coker, Totten, and Couch. Laboratory fee, \$4.00 a term. Hours: to be arranged with the class.

Original work with thesis under the guidance of the instructor.

CHEMISTRY

Courses for Undergraduates

s4. GENERAL DESCRIPTIVE CHEMISTRY. Credit, 6 quarter hours.

First term. Professor Markham. Laboratory fee, \$4.50. Hours: Lectures, 9:00 daily (including Saturdays). Laboratory, 2:00 to 4:00 daily (including Saturdays).

An introduction to the study of the principal non-metallic and metallic elements and their compounds.

s5. GENERAL DESCRIPTIVE CHEMISTRY. Credit, 6 quarter hours.

Second term. Professor Edmister. Laboratory fee, \$4.50. Hours: Lectures, 9:00 daily (including Saturdays). Laboratory, 2:00 to 4:00 daily (including Saturdays).

s31. QUALITATIVE ANALYSIS. Credit, 6 quarter hours.

First term. Professor Dobbins. Laboratory fee, \$10.00. Hours: Lectures, 2:00 daily. Laboratory, 3:00 to 6:00 daily. Prerequisite, Chemistry, 1, 2, and 3, or 4 and 5.

s41. QUANTITATIVE ANALYSIS. GRAVIMETRIC. Credit, 6 quarter hours.

Second term. Professor Markham. Laboratory fee, \$10.00. Hours: Lectures, 12:00 daily. Laboratory, 2:00 to 5:00 daily. Prerequisite, Chemistry 31.

s42. QUANTITATIVE ANALYSIS. VOLUMETRIC. Credit, 6 quarter hours.

First term. Professor Markham. Laboratory fee, \$10.00. Hours: Lectures, 12:00 daily. Laboratory, 2:00 to 5:00 daily. Prerequisite, Chemistry 31.

s61. ORGANIC CHEMISTRY. ALIPHATIC SERIES. Credit, 6 quarter hours.

First term. Professor Bost. Laboratory fee, \$10.00. Hours: Lectures, 9:00 daily (including Saturdays). Laboratory, 10:00 to 12:00 daily (including Saturdays). Prerequisite, Chemistry 31.

Courses for Graduates and Advanced Undergraduates

s143. THEORETICAL ANALYTICAL CHEMISTRY. Credit, 5 quarter hours.

First term. Professor Dobbins. Hours: Lectures, 10:00 to 12:00 daily. Prerequisite, Chemistry 31 and 42.

s162. ORGANIC CHEMISTRY. AROMATIC SERIES. Credit, 6 quarter hours.

Second term. Professor Williams. Laboratory fee, \$10.00. Hours: Lectures, 9:00 daily (including Saturdays). Laboratory, 10:00 to 12:00 daily (including Saturdays). Prerequisite, Chemistry 61.

s163. QUALITATIVE ORGANIC ANALYSIS. Credit, 6 quarter hours.

First term. Professor Bost. Laboratory fee, \$10.00. Hours: Lectures, 12:00 daily (including Saturdays). Laboratory, 8:00 to 10:00 daily (including Saturdays). Prerequisite, Chemistry 61 and 162.

s171. FOOD CHEMISTRY. Credit, 6 quarter hours.

Second term. Professor Williams. Laboratory fee, \$10.00. Hours: Lectures, 12:00 daily (including Saturdays). Laboratory, 2:00 to 4:00 daily (including Saturdays). Prerequisite, Chemistry 42 and 61.

s182. PHYSICAL CHEMISTRY. Credit, 6 quarter hours.

First term. Professor Crockford. Laboratory fee, \$7.00. Hours: Lectures, 12:00 daily (including Saturdays). Laboratory, 2:00 to 6:00 M., W., F.

s183. PHYSICAL CHEMISTRY. Credit, 5 quarter hours.

First term. Professor Crockford. Hours: Lectures, 8:00 to 10:00 daily. Prerequisite, 81 and 182.

Courses Primarily for Graduates

s241. SEMINAR IN ANALYTICAL CHEMISTRY. Credit, 3 quarter hours.

Second term. Professor Markham. Hours: Lectures, 11:00 daily (including Saturdays). Prerequisite, Chemistry 31 and 42.

s251. HISTORY OF CHEMISTRY. Credit, 2½ quarter hours.

Second term. Professor Edmister. Hour: 10:00 daily.

s341. RESEARCH IN ANALYTICAL CHEMISTRY. Credit, 5 or more quarter hours.

Both terms. First term, Professor Dobbins; second term, Professor Markham. Laboratory fee, \$10.00. Hours: by arrangement.

s361. RESEARCH IN ORGANIC CHEMISTRY. Credit, 5 or more quarter hours.

First term. Professor Bost. Laboratory fee, \$10.00. Hours: by arrangement.

s381. RESEARCH IN PHYSICAL CHEMISTRY. Credit, 5 or more quarter hours.

First term. Professor Crockford. Laboratory fee, \$10.00. Hours: by arrangement.

ECONOMICS AND COMMERCE

Commerce

Courses for Undergraduates

s51. BUSINESS ORGANIZATION. Credit, 5 quarter hours.

First term. Professor Schwenning. Hours: 9:00 and 11:00 daily.

Treats intensively of the learning process in its relation to the acquisition and retention of information, feelings, skills, and attitudes.

s299ab. PRINCIPLES OF SECONDARY EDUCATION. Credit, 2½ quarter hours each term.

Through both terms. First term: Professor Gwynn. Second term: Mr. Garinger. Hours: 2:00 to 4:00 T. and Th.

A systematic course for graduate students, intended primarily for those who have not had Education 99. This course will embrace a study of the American high school, its evolution, organization, administration, functions, and problems. It is designed primarily for high school principals and graduate students who are looking forward to high school principalships.

s303ab. PROBLEMS IN EDUCATIONAL ADMINISTRATION. Credit, 2½ quarter hours each term.

Through both terms. First term: Mr. Hollingshead. Second term: Mr. Newcomb. Hours: to be arranged. Prerequisite, Education s101, or its equivalent, and one other course in educational administration.

A graduate course offering opportunity for intensive study and research on selected problems in the field of educational administration. The problems will be selected by the class each year, making it possible for the student to take this course more than once.

s341ab. FOUNDATIONS OF MODERN EDUCATION. Credit, 2½ quarter hours each term.

Through both terms. First term: Professor Knight. Second term: Professor Weathersby. Hours: to be arranged.

This is a research course in modern educational practices and institutions and is open only to those advanced students who have had Education 142, or Education 143, or the equivalent. Various educational agencies will be studied through investigations, reports, and conferences.

s375ab. THESIS COURSE. Credit, 2½ quarter hours each term.

Through both terms. Professor Trabue and others. Hours: to be arranged.

This is a course in which there will be taken up such work as is necessary for each student in connection with the writing of his degree thesis. It is intended for those students whose graduate major is in education, but students whose thesis topics are closely related to education are invited to attend and to take part in the discussion.

s398ab. PROBLEMS IN SECONDARY EDUCATION. Credit, 2½ quarter hours each term.

Through both terms. First term: Professor Gwynn. Second term: Mr. Garinger. Hours: to be arranged.

This double course is intended for advanced students and is primarily a course in investigation. To be admitted to it, a student must have pursued other courses in secondary education. At the beginning of the course each student is required to select some one problem for special investigation. A thesis will be required of each student.

NOTE: The attention of students in Education is called to Psychology s140, PSYCHOLOGY OF PERSONALITY; Sociology s175, EXTRA-CURRICULAR ACTIVITIES; and French s55, REVIEW OF GRAMMAR AND SYNTAX.

AGENCY. Credit, 2½ semester hours.
Second term. Professor Breckenridge. Hour: to be arranged.

DOMESTIC RELATIONS. Credit, 2½ semester hours.
Second term. Professor Hanft. Hour: to be arranged.

The first two courses named each term are for advanced students; the second two are primarily for beginning students. The latter statement is wholly true of Contracts and Torts during the first term.

Separate credit may be obtained for the work of each term. Credit for two and one-half semester hours will be given for each subject completed each term. All classes meet daily, from Monday to Friday, inclusive, for one hour and twenty minute periods each. Two courses constitute the maximum load for which a student may register. Attendance throughout the entire Summer Session enables the successful student to obtain credit equivalent to one-third of a regular year's work.

Requirements for Admission. For students beginning the study of law, the completion of the first three years of work required for an academic degree in an accredited college. For advanced students, good standing at a member school of the Association of American Law Schools.

Fees. Residents of North Carolina, \$40.00 for one term, \$75.00 for both terms; non-residents, \$55.00 for one term, \$100.00 for both terms. Room rent in Carr Building, reserved exclusively for the use of law students, is \$15.00 for each occupant of a double room, for each term of the Summer Session.

The School of Law of the University of North Carolina is approved by the American Bar Association, and is a member of the Association of American Law Schools.

LIBRARY SCIENCE

s101ab. CATALOGING AND CLASSIFICATION. Credit, 2½ or 5 quarter hours.

Both terms. First term: Professor Doyle. Second term: Professor Akers. Hour: 8:00 daily.

s102ab. CATALOGING AND CLASSIFICATION. Credit, 2½ or 5 quarter hours.

Both terms. First term: Professor Doyle. Second term: Professor Akers. Hour: 11:00 daily.

s111ab. REFERENCE AND BIBLIOGRAPHY. Credit, $2\frac{1}{2}$ or 5 quarter hours.

Both terms. First term: Professor Kelling. Second term: Miss Nix. Hour: 10:00 daily.

s112ab. REFERENCE AND BIBLIOGRAPHY. Credit, $2\frac{1}{2}$ or 5 quarter hours.

Both terms. First term: Professor Kelling. Second term: Miss Nix. Hour: 9:00 daily.

s121ab. PRINCIPLES OF BOOK SELECTION. Credit, $2\frac{1}{2}$ or 5 quarter hours.

Both terms. Miss Butler. Hour: 9:00 daily.

s122ab. BOOK SELECTION FOR HIGH SCHOOL LIBRARIES. Credit, $2\frac{1}{2}$ or 5 quarter hours.

Both terms. Miss Butler. Hour: 8:00 daily.

s124ab. BOOK SELECTION FOR COLLEGE LIBRARIES. Credit, $2\frac{1}{2}$ or 5 quarter hours.

Both terms. Miss Butler. Hour: 12:00 daily.

MATHEMATICS

Courses for Undergraduates

s1. COLLEGE ALGEBRA. Credit, 5 quarter hours.

First term. Professor Winsor. Hours: 10:00 and 12:00 daily.

s2. PLANE TRIGONOMETRY. Credit, 5 quarter hours.

Second term. Professor Linker. Hours: 10:00 and 12:00 daily.

s13. ANALYTIC GEOMETRY. Credit, 5 quarter hours.

First term. Professor Mackie. Hours: 9:00 and 11:00 daily.

s24. DIFFERENTIAL CALCULUS. Credit, 5 quarter hours.

First term. Professor Browne. Hours: 9:00 and 11:00 daily.

s25. INTEGRAL CALCULUS. Credit, 5 quarter hours.

Second term. Professor Hoyle. Hours: 9:00 and 11:00 daily.

Courses for Graduates and Advanced Undergraduates

s104. INTRODUCTION TO ADVANCED ALGEBRA. Credit, $2\frac{1}{2}$ quarter hours.

First term. Professor Winsor. Hour: 9:00 daily.

s141. DIFFERENTIAL EQUATIONS. Credit, 5 quarter hours.

Through both terms. First term: Professor Henderson. Second term: Professor Linker. Hour: 9:00 daily.

A study of differential equations and their applications to selected problems in both pure and applied mathematics.

s151. PROJECTIVE HOMOGENEOUS COÖRDINATES AND THEIR APPLICATIONS. Credit, 5 quarter hours.

Second term. Professor Lasley. Hours: 9:00 and 11:00 daily.

A study of the general homogeneous coördinates of forms of one, two, three, and four dimensions; cross ratio and its properties; ideal elements; duality; projective correspondence; transformation of coördinates; the elements of line geometry.

s161. ANALYTIC GEOMETRY OF SPACE. Credit, 5 quarter hours.

First term. Professor Henderson. Hours: 8:00 and 10:00 daily.

Quadric surfaces, quadriplanar and tetrahedral coördinates, space curves, curvature, etc.

s171. ADVANCED CALCULUS. Credit, 5 quarter hours.

Through both terms. First term: Professor Mackie. Second term: Professor Hoyle. Hour: 12:00 daily.

This course furnishes a background for the further study of analysis. Its chief purpose is rigor in demonstration.

Courses Primarily for Graduates

s236. HIGHER PLANE CURVES. Credit, $2\frac{1}{2}$ quarter hours.

Second term. Professor Lasley. Hour: 12:00 daily.

s246. MODERN HIGHER ALGEBRA. Credit, $2\frac{1}{2}$ quarter hours.

First term. Professor Browne. Hour: 12:00 daily.

Polynomials and their fundamental properties, determinants, theory of linear dependence, linear equations, matrices, invariants, bilinear and quadratic forms.

MUSIC

Courses for Undergraduates

s4. MUSICAL NOTATION, SIGHT-SINGING, AND DICTATION. Credit, 3 quarter hours.

Each term. First term: Professor Slocum and assistant. Second term: Mr. Keutzer and assistant. Hours: 8:00 and 1 additional hour daily to be arranged.

A course in the rudiments of musical notation with practice in reading and writing scales, intervals, melodies, and elementary harmonic materials. sA. PREPARATORY ORGAN.

* This course will be given if the demand warrants.

- s1A. FIRST YEAR ORGAN.
 s21A. SECOND YEAR ORGAN.
 s51A. THIRD YEAR ORGAN.
 s81A. FOURTH YEAR ORGAN.
 Similar numbering applies to each of the courses B, C, D, and E.
 sB. PIANO.
 sC. VOICE.
 sD. VIOLIN.
 sE. OTHER BAND AND ORCHESTRAL INSTRUMENTS.

Class Instruction

During the first term of the Summer Session, in connection with the All-State High School Band and Orchestra Music course,* class instruction in all band and orchestral instruments will be offered. These courses are designed principally for teachers having to do with the organization and directing of high school bands and orchestras. Instruments may be rented at a nominal fee, but teachers are urged to bring their own instruments if possible.

sF. ANY BAND OR ORCHESTRAL INSTRUMENT.

First term. Professor Slocum, Mr. Kutschinski, Mr. Mitchell, Miss Wilson, Mr. Hazelman. Hours: to be arranged.

sJ. CHORUS. No credit.

Second term. Mr. Keutzer. Hour: 5:00 daily.

This course is open to all students of the Summer Session interested in singing the standard literature for mixed chorus.

Courses for Graduates and Advanced Undergraduates

The work in the summer terms is planned so that a properly prepared graduate student can complete the requirements for the A.M. degree in three summers of two terms each.

s101. MUSICOLOGY. Credit, 2½ quarter hours.

First term. Professor Haydon. Hour: 11:00 daily.

This part of the general course in Musicology—which is a study of the problems and methods in the various fields, historical and systematic, of musical research—is devoted to the study of musical acoustics, and the psychology of music.

* See Special Announcements.

** This course will be given if the demand warrants.

SCHOOL OF PHARMACY

The School of Pharmacy offers during the first term only the courses described below. It should be understood, however, that in the plan of such offerings the School operates upon a basis different from that obtaining in other divisions of the Summer School. Two differences are outstanding: 1. Instead of charging a composite fee the School makes a fixed charge for each course offered. The total cost of each such course is indicated in the descriptions below. 2. A minimum of five students must register for any one of the courses. If fewer than this number apply the course will not be given.

Any student registered in the School of Pharmacy who desires to take any service course offered in the regular Summer School may do so, provided such addition will not constitute an over-loaded schedule, and provided such student pays the sum of \$2.25 for each quarter credit hour such a service course carries. If the service course involves a laboratory fee, such fee is an additional cost.

It is recommended that students interested in taking any courses in pharmacy write in advance to the Dean of the School of Pharmacy stating all subjects which they would like to pursue.

s10. PHARMACEUTICAL MATHEMATICS. Credit, 3 quarter hours.

A course that relates arithmetic and mathematics to the special problems arising in dispensing and merchandising calculations involved in pharmaceutical practice. Six lectures a week. Textbook: *Sturmer's Pharmaceutical Arithmetic*. Professor Jacobs. Tuition: \$25.00.

s11. PHARMACEUTICAL TECHNIQUE. Credit, 5 quarter hours.

The lectures deal with the theory and practice of pharmacy. The laboratory work is designed to train the student in the fundamental manipulations involved in the simpler practices. Six lecture and eight laboratory hours a week. Textbooks: *U. S. Pharmacopoeia*; *National Formulary*. Professor Burlage. Tuition: \$40.00. Laboratory fee: \$4.00.

s13. PHARMACEUTICAL TECHNIQUE AND PREPARATIONS. Credit, 3 quarter hours.

A continuation of Pharmacy s11 dealing with the more advanced theories and manipulations of pharmacy. Simple galenical preparations are studied and prepared. Four lecture and four laboratory hours a week. Textbooks: Same as Pharmacy s11. Professor Burlage. Tuition: \$25.00. Laboratory fee: \$4.00.

One or the other but not both of the two following courses will be offered depending upon which is found to be in greater demand upon the part of the applicants.

s21. GALENICAL PHARMACY. Prerequisite, Pharmacy 10, 11, 12. Credit, 5 quarter hours.

The official galenicals are studied in the lectures. The laboratory work consists of the preparation of the more important types of official preparations. Six lecture and eight laboratory hours a week. Textbooks: *United States Pharmacopoeia*; *National Formulary*. Professor Burlage. Tuition: \$40.00. Laboratory fee: \$8.00.

s22. INORGANIC PHARMACY. Prerequisite, Chemistry 31. Credit, 5 quarter hours.

Official inorganic compounds are studied. The laboratory work deals with the compounds and preparations involving chemical reactions. Six lecture and eight laboratory hours a week. Textbooks: Same as Pharmacy s11, also *New and Non-Official Remedies*. Professor Burlage. Tuition: \$40.00. Laboratory fee: \$4.00.

PHYSICAL EDUCATION

s151. PRINCIPLES OF PHYSICAL EDUCATION. Credit, $2\frac{1}{2}$ quarter hours if lectures only are taken; 5 quarter hours if both lectures and laboratory work are taken.

PART III—SPECIAL FEATURES

In addition to the courses of instruction announced in Part II of this Bulletin the Summer Session of 1936 will sponsor a general program of entertainment, recreation, lectures, and conferences. These special features can not be announced in complete detail at this time. More specific announcements concerning them will be announced from week to week. Some of these attractions for which preliminary arrangements have been made are as follows:

A program of social activities and week-end dances will be conducted by the Social Committee.

The Department of Music will put on a series of faculty and student recitals.

Carolina Playmakers

The Carolina Playmakers as in previous summers will present a play in their beautiful little Playmakers Theatre on the University campus or in the Forest Theater in Battle Park adjoining the campus. Summer school students interested in dramatics will have an opportunity to take part in this production as actors and also in designing and construction of the scenery, costuming, lighting and make-up of the production. The play to be presented and the dates on which it will be given will be announced later.

Course on Marriage and the Family (July 6-10)

In response to a growing interest in the development of instruction designed to give preparation for marriage, Professor Ernest R. Groves will have charge of a one week's course in the methodology of teaching courses dealing with the problems of marriage and the family. This course is open to men and women who are graduates of colleges or schools of medicine, law, or theology, and who already are giving or are preparing to give courses in marriage and the family. In connection with it a series of evening lectures is being planned to be given by specialists who professionally deal with problems related to marriage. Correspondence regarding it should be addressed to Professor Groves.

Institute on Public Welfare

Among the special features for the Summer School may be listed the summer Institute on Public Welfare under the joint auspices of the State Board of Charities and Public Welfare and the Social Work Division of the University of North Carolina School of Public Administration. This annual institute has been held since 1920 and brings together a large number of social workers, superintendents of public welfare, and visiting specialists.

A one week's Course on Teaching Marriage and the Family is held under the direction of Professor Groves. (See above.) This course enrolls special students from the several states in the region and will bring together a number of leading specialists in the United States.

There will be a special concentration of courses on sociology and education, with some special institutes on the teaching of sociology in the Southeast.

State Conference on Adult Education

The Extension Division and the Summer Session of The University of North Carolina will conduct at Chapel Hill on July 15 and 16 the third State Conference on Adult Education. Representatives of agencies engaged in educational activities for adults are invited to attend.

Fine Arts

The University of North Carolina has been experimenting for three years with instruction in painting and drawing. A resident teacher, visiting lecturers, and exhibits in the field of Fine Arts have been provided. The University is prepared to continue the same type of instruction in the Summer Session of 1936. Any persons interested in instruction in Fine Arts may secure information by addressing inquiries to the Secretary of the Summer Session, Chapel Hill, N. C.

Art Institute

An Art Institute for teachers and amateur artists will be conducted by the University Extension Division, in coöperation with the State Department of Public Instruction, at Blue Ridge, N. C., August 6 to 8, 1936. Lectures, demonstrations, and special exhibitions will constitute the main part of the program. For information write to Mrs. Corinne McNeir, Field Representative in Art, Chapel Hill, N. C.

Short Course in Nursing Education

In coöperation with the North Carolina State Nurses Association, the Extension Division will conduct a Short Course in Nursing Education for graduate nurses, at Chapel Hill July 27-August 5, 1936. The course will include lectures on both professional and cultural subjects of interest to registered nurses. Inquiries concerning the course should be addressed to R. M. Grumman, Director, University Extension Division, Chapel Hill, N. C.

Ninth Annual Parent-Teacher Institute (August 3-10)

The Extension Division, in coöperation with the North Carolina Congress of Parents and Teachers, will hold at Chapel Hill during the period August 3-10, inclusive, the ninth annual Parent-Teacher

Institute. Summer Session students are invited to attend and may secure information from R. M. Grumman, 307 South Building, Chapel Hill, N. C.

Fifteenth Annual Coaching School For Athletic Directors and Coaches (August 17-29)

The fifteenth annual coaching school for athletic directors and coaches will be conducted at Chapel Hill from August 17 until August 29. Instruction will be given in the coaching of football, basketball, baseball, track, boxing, and wrestling, and in training and conditioning. Robert A. Fetzner, Director of Athletics at the University of North Carolina, will serve as director of the school and the various members of the University's regular coaching staff will serve as instructors. Information concerning the school may be secured from E. R. Rankin, Secretary, 309 South Building.

Conference on Education and Public Relations

During the first term of the Summer Session (June 11-July 22) there will be conducted in Chapel Hill, at dates to be announced later, a conference on Education and Public Relations, similar to the conference held in 1935 on Public Educational Administration. A special announcement will be issued later.

Higher Education

A special course dealing with problems of instruction and administration in higher educational institutions will be conducted during the first term by members of the staff and distinguished visiting lecturers.

Social Activities

The Committee on Social Activities, H. F. Comer, Chairman, is in control of the evening socials in the gymnasium and of all dances given by student groups. It is the policy of the committee to foster the maximum amount of wholesome social life compatible with good scholastic work. In keeping with this policy, the essential regulations are kept down to the minimum number. There will be dancing in the gymnasium regularly, under the management of the social committee, on Friday and Saturday evenings. Inasmuch as there is no appropriation or fee for defraying the expenses of social programs, the dances have to be self-supporting. Therefore, a small door fee is charged of all men at each dance—fifty cents for the two-and-one-half-hour periods.

Permissions for all dances given by students anywhere and at any time must be obtained in advance from the chairman of the Social Activities Committee.

The highest standard of conduct has characterized our social functions in the past and the Summer School insists that this be the case at all times.

The Y. W.-Y. M. C. A.

The Y. W.-Y. M. C. A. is a combined organization of Y. W. C. A. and Y. M. C. A. It has a mixed cabinet of men and women students, about thirty in number, with an employed staff of three secretaries, two women and one man. This Association serves the entire Summer Session, and in campus vernacular is called simply the "Y." It has headquarters in the Y. M. C. A. building which is located in the heart of the campus. The location of the building typifies the place the Association fills in the life of the community, for it is truly the center of campus activities.

The principal points of the "Y's" program for the summer are the following:

1. Operating the "Y" building, as a Campus Home—or club for all—having lobby; parlor, with piano, etc.; reading room; committee rooms; telephone for local and long distance service; ice water, etc. In the building a host and hostess are always present to receive and serve students and their friends.

2. A distinctive form of campus service is rendered through the "Y" office, in an Information and Lost and Found Bureau. A master directory is kept here, of all students and faculty. Telegrams and long distance calls are handled through this office. Found articles are turned in here and prompt effort is made to locate the owner. Inquiries are also left at the office for lost articles. Any information desired, in fact, may be had here, for if we cannot answer your questions we know who can and will direct you to them.

3. Special attention is given the many visitors who come to the campus throughout the summer. You are invited to instruct your visiting friends to "Report at the 'Y'" and wait in the lounge while we send for you.

4. Religious program is given constant and thorough attention by the "Y" organization during the summer. It coöperates with the five local churches in their efforts for students. It conducts a vesper, or 12-minute prayer service every evening immediately following supper. The "Y" promotes a union church program for the month of August.

5. The Social and Entertainment department is very active all the time. It provides music and general facilities for amusement. There is a public dance every Friday and Saturday evening. This department also conducts picnics, hikes, and various other parties from time to time.

6. A Self-Help Bureau is ever active, assisting any needy students in getting remunerative employment for defraying part of their college expenses.

7. In addition to the above points of program, the "Y" is a general campus and community welfare agency, rendering service wherever

needed. The Association solicits the coöperation of every summer session student. Use it, and work through it!

8. The social program will make frequent use of the handsome Graham Memorial Building this summer.

9. Housing and Rooming Bureau.

Student Self-government operates in the summer session under joint men's and women's councils, sponsored by the Social Committee, the Dean of Students, and the Adviser to Women.

Special Announcements in Music

All-State High School Music Course

The Extension Division in coöperation with the Music Department of the University of North Carolina at Chapel Hill will offer during the first term of the summer session, from June 11th to July 22nd, an All-State High School Music course which will be open to all high school band and orchestra players.

In addition to daily rehearsals of the All-State High School Band and Orchestra, students will be enrolled in music theory and appreciation classes and will also receive individual lessons and training in ensemble. Concerts, recitals, sports, and social recreation complete the list of activities which are planned and supervised by a competent and experienced staff.

Enrollment is open to any high school student or graduate of the current year upon recommendation of his school superintendent and music supervisor. Membership is not contingent upon participation in music contests, although special attainments in any field are taken into account in the selection of members.

The details of the living arrangement and recreational activities will be planned and supervised by the Dean of Students, the Adviser to Women, the University Y. M. C. A., and the Department of Physical Education. The cost of the complete All-State Music Course has been reduced to the absolute minimum and a single fee of fifty dollars (\$50.00) covers board, room, and tuition for the six weeks course.

Courses will be offered for music supervisors and teachers having to do with the organization and direction of high school bands and orchestras. See especially the courses Music s4, s14, s71, sF, and Education s179a. Professor Slocum will be in general charge of the project. The staff will include Dr. Glen Haydon, Head of the Department of Music, U. of N. C.; Christian D. Kutschinski, Director of Music, State College, Raleigh; J. Harris Mitchell, Instrumental Supervisor, Durham Public Schools; Elizabeth Wilson, Violin instructor, State School for the Blind, Raleigh, N. C.; and Herbert Hazelman, Graduate Assistant at the University.

School officials receiving this announcement are invited to recommend several outstanding students in each of the special fields of

band and orchestra for membership in the 1936 All-State High School Music Organization. Recommendations or inquiries should be addressed to the Extension Division, The University of North Carolina, Chapel Hill, N. C.

Summer Session Chorus

A special feature of the second term of the Summer Session will be the chorus which will meet daily at 5:00 P. M. for an hour of informal singing under the leadership of Clyde Keutzer, well-known choral director of New York City.

Organ and Vocal Recitals

During the second term there will be a series of organ recitals by Professor Jan Philip Schinhan and vocal recitals by Mr. Clyde Keutzer.

Course in Hand Puppetry

During the first term a practical course in hand puppetry will be conducted by Miss Catherine McAndrews, an A.B. graduate of Vassar College and a graduate of the Vassar Experimental Theatre. Hand puppets as tools in health education and in classroom and community projects. This course will be shaped as far as possible by the individual problems of the students. The class will make simple hand puppets, learn to manipulate them, construct a small portable theatre, and write puppet plays. Methods which young school children can follow will be included. The course will consist of two hours of laboratory work five days a week and will carry regular credit of 2 semester hours on a teaching certificate.

UNIVERSITY HIGH SCHOOL

During the first term of the Summer Session of 1936 (June 11 to July 22) the University will provide in Chapel Hill some high school courses for those who are deficient in preparation for admission to college or who desire a better preparation for college admission. The high school courses which are to be offered are listed below.

No student will be allowed to take more than two courses. The fee for each course will be \$12.00. Board and room can be obtained in Chapel Hill at reasonable rates. Students whose applications for admission to the University have been accepted may live in the University Residence Halls and may register in the University. For those students who have not completed their requirements there are no charges except the course fee.

New Regulation of the State Department of Education:

At the suggestion of Dr. James E. Hillman, Director, Division of Professional Service, we make the following statement:

"As of July 1, 1939, and thereafter, the Class A Certificate built up from a lower grade certificate will be based upon a satisfactory completion of the requirements for a degree from a standard college, along with, or in addition to, the specific certificate requirements. It is suggested that those teachers in service who may not reasonably be expected to qualify for the Class A Certificate prior to July 1, 1939, arrange their program of studies in coöperation with the institution from which they would like to obtain the degree.

"The above direct authorization has been made by the State Board of Education."

We are carrying this announcement that those teachers who now do not hold Class A Certificates may have their attention called to their situation, and may make every possible effort to secure the desired certificates before this change goes into effect July 1, 1939.
